Project Works for FA 4

Grade X – Geography

Project I

1. Select one agro-based or one mineral based industry in your District in India.
 - i. What are the raw materials the industry use?
 - ii. What are the other inputs used by the industry? List them. Which inputs are transported from neighbouring districts?
 - iii. Is this agro-based or mineral based industry in your District pollutes the environment?
 - iv. What types of pollution?
 - v. What steps are taken by Government or Industrial owner or by the community to reduce the environmental problem caused by the industry?
 - vi. What are your suggestions to reduce the environmental pollution by this industry?

(Write minimum 2 pages and maximum 3 pages; Paste one image/picture of the industry; Paste the newspaper cutting or paste news about the industry in your district from any newspaper website. All the 6 sub headings must be covered in the Project work. Originality and creativity of your work will be appreciated). (This project work is also given your Geography text book page no. 80.)

Project II

1. Prepare a Pocket Guide on First Aid (in English).

(This project will help us to understand the importance of First Aid when any hazards or disasters occur).

(Write 2 to 3 pages; Paste relevant 2 or 3 images/pictures). (Project should contain the following sub-headings)

1. Introduction
2. First-Aid Meaning (from Encyclopedia)
3. Aims/Objectives of First Aid
4. First Aid Kit: Stock supplies that can save lives
5. First Aid for
 - i. Burns
 - ii. Heatstroke
